

Installation

WiFi Setup

1. Settings>Wireless&Networks>Wifi
 - o Tick to turn on
2. Settings>Wireless&Networks>Wifi Settings
 - o Select your network, connect and enter your password

Application Setup

1. On phone/tablet
 - o Settings>Security
 - o Tick Unknown Sources
2. a. Connect to a PC (MTP mode)
 - o Open Windows Explorer
 - o Copy flurrish.apk to the phone (with this email)
 - o Disconnect phone/tablet

b. **OR** Download directly onto the device from: <http://www.flurrished.com/numberfy.apk>
3. On phone/tablet
 - o Apps>File Manager (or your own installed file manager)
 - o Install "Numberfy" and open
4. Start Numberfy (and then exit)
5. Connect to a PC
 - o Use Windows Explorer to copy device_identification\device-id.log to your PC
 - o open device-id.log and copy the number in to an Excel spreadsheet

¹Please note that you will need to enter the proxy settings of your network in the phone/tablet wifi settings

²If you are running multiple profiles, after installation run the app from a student profile before copying the device ID

³Your web filtering company will need to ensure that flurrished.co.uk and flurrished.com are **not** being filtered
